- Github

OBJECTIVE

Seeking a Software Developer role to apply my programming skills and problem-solving abilities in building efficient solutions, while contributing to team success and learning emerging IT technologies.

INTERNSHIP EXPERIENCE

Full Stack Web Development | JOY INNOVATIONS
July 2024 - August 2024

- Designed and built responsive web pages using HTML and CSS, focusing on clean layout, styling, and user-friendly interfaces.

PROJECTS

Image-Based Aadhaar & Smart Card Verification for Secure Government Loan Waivers

- Developed a Python Flask web app with QR code scanning (OpenCV, Pyzbar) and SQLite integration for automated Aadhaar/Smart Card validation and loan waiver processing by machine learning.

Portfolio

- I created a responsive portfolio using HTML, CSS, and Bootstrap to display my work, skills, and contact info. It works well on both mobile and desktop screens.
[View Project](#)

Restaurant Landing Page

- Created a landing page using HTML, CSS with sections like navbar, features, pricing, and contact form during my FIIT course. [View Project](#)

FIIT Project Website

- Designed a simple multi-section website using HTML, CSS, and Bootstrap. Includes pages like Dashboard, Classes.
